think I have a head!!

It's been quite hot out here but we're all getting used to it. One day, during our first week here, the temperature was 131°!! How do you like your new job? I suppose it's like all Pres Jobs — a snap!! But then, you couldn't handle anything else!! I'm glad you getting more money!!! Be sure and save it, for it will be all the easier to support me after the war if you do. If you don't you'll probably have to start scrubbing floors.

The woman situation out here — at the moment — is terrible!! The only things we see here are Jack Rabbits and Rattle Snakes!! They don't answer to my whistles — darn it!!

So Kay Hagel and you are floating around looking for men? Hell, don't get discouraged dear, — you'll find one — I think.

So Alan Ladd is in Newark?!! Did you see him yet? How did he look — G.I.?
