Dear Anne,

Well, I finally received that "8 page letter" you were talking about. It was very enlightening to say the least. You certainly are some actress —— I never thought you were going "steady" before I came home; however I might have known that In time, you'd probably meet someone else whom you'd like well enough to go "steady" with. It seems that I received that furlough at the right time —— for me!! I guess I sort of mixed up Jim's plans though. Anne, I never thought you'd be taken in by smooth talking! That was a surprise
